Extendable push–pull snow plows with rotating wings

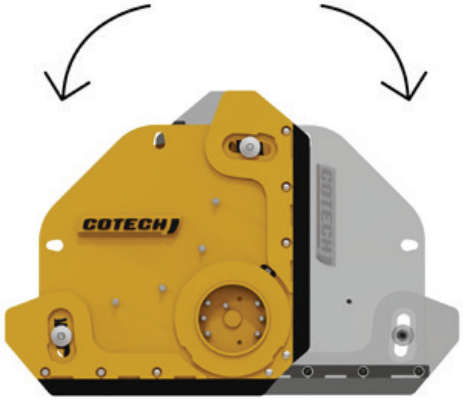

GET MORE DONE WITH A PPCR

HARDOX® IN MY BODY

EXTENDABLE
Extensions supported by three points for consistent ground contact.

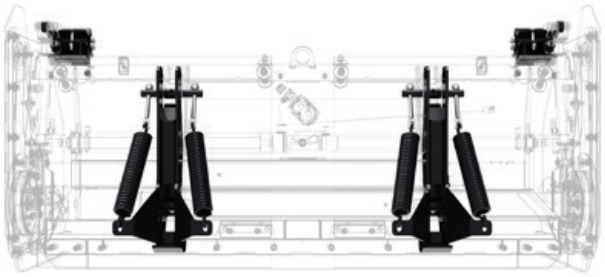

ROTATING WINGS
Wings rotate in just 1 second.

CONSTANT-PRESSURE MECHANICAL LEVELING SYSTEM
Let the weight of the plow do the work.

TRIP SYSTEM
Protects the equipment, the plow and the operator.

Key benefits

Field-proven design
The extendable push-pull snow plow that increases productivity and operational versatility.

Mechanical leveling system
Delivers quality snow removal with consistent ground pressure, regardless of conditions.

Easy-to-operate rotating wings
Quick training and easy adaptation for operators.

The plow that adapts to your contracts
Residential properties, light commercial, apartment buildings and gas stations.

PPCR | FOR TRACTORS

Benefits

1.

Designed for snow removal
Our lifting systems are bolted to the tractor chassis.

2.

Parallel lifting system
Allows snow removal close to obstacles.

3.

Easy to operate
All plow functions are integrated into the tractor joystick.

4.

Rotating wings
Move a greater volume of snow.

5.

Operational versatility
Designed to push and pull snow in a wide range of applications.

6.

Uniform clearing
Fewer maneuvers. Fewer passes.

PPCR | FOR TRACTORS

Compatibility
4,000 TO 16,000 LB

PPCR | FOR TRACTORS

Compatibility

7,000 TO 16,000 LB

THREE-POINT FRONT HITCH

Models	Recommended Tractor	Closed Width	Open Width	Height	Push Depth	Pull Depth	Weight
PPCR34712-HD-ATPF	85 to 115 hp 7,000 to 12,000 lb	90"	150"	34"	28.5"	25"	1,600 lb
PPCR34813-HD-ATPF	95 to 130 hp 10,000 to 14,000 lb	99"	159"	34"	28.5"	25"	1 900 lb
PPCR40814-HD-ATPF	100 to 155 hp 11,000 to 16,000 lb	102"	174"	40"	40"	32"	3,305 lb

OPTIONAL: Hydraulic pivot system.

Benefits

1.

Designed for residential and commercial
snow removal.

2.

Trip system
standard on all PPCR-L models.

3.

Compact quick attach
tailored to your machine, with several models available.

4.

Greater versatility
quickly switch between push and pull modes during snow removal operations.

5.

Superior performance
with robust extensions that let you move greater volumes of snow.

PPCR | FOR LOADERS

Compatibility

4,000 TO 20,000 LB

LOADER QUICK ATTACH

Models	Recommended Loader/Tractor	Closed Width	Open Width	Height	Push Depth	Pull Depth	Weight
PPCR30610-L	40 to 55 HP 4,000 to 8,000 lb	77"	125"	30"	22"	21"	1,275 lb
PPCR30712-L	55 to 65 HP 5,000 to 8,000 lb	89"	149"	30"	22"	21"	1,430 lb
PPCR34712-HD-L	65 to 75 HP 9,000 to 12,500 lb	90"	150"	34"	28.5"	25"	1,600 lb
PPCR34813-HD-L	75 to 90 HP 10,000 to 13,000 lb	99"	159"	34"	28.5"	25"	1,900 lb
PPCR40814-HD-L	75 to 115 HP 13,000 to 20,000 lb	102"	174"	40"	40"	32"	3,200 lb

OPTIONAL: Hydraulic pivot system.

PPCR | FOR SKID STEERS

Compatibility

5,000 TO 13,000 LB

SKST QUICK ATTACH

Models	Recommended Skid Steer	Closed Width	Open Width	Height	Push Depth	Pull Depth	Weight
PPCR30610-SKST	50 to 65 hp 5,000 to 8,000 lb	77"	125"	30"	22"	21"	1,275 lb
PPCR30712-SKST	65 to 75 hp 5,000 to 8,000 lb	89"	149"	30"	22"	21"	1,430 lb
PPCR34712-HD-SKST	75 to 100 hp 8,000 to 11,000 lb	90"	150"	34"	28.5"	25"	1,600 lb
PPCR34813-HD-SKST	100 to 115 hp 10,000 to 13,000 lb	99"	159"	34"	28.5"	25"	1,900 lb

OPTIONAL: Hydraulic pivot system.

HYDRAULIC PIVOT SYSTEM

All PPCR models can be equipped with a hydraulic pivot system. The system bolts onto the plow and can be added at any time. Compatible with tractors, wheel loaders and skid steers.

For tractors

PPCR-DP-F

For loaders

PPCR-DP-L

For skid steers

PPCR-DP-SKST

FACT #1

The **center pivot** lets you push and direct snow at a **30° angle** to either side.

FACT #2

The hydraulic pivot system facilitates tight turns in push mode.

FACT #3

Improves **maneuverability and operating precision** when working around obstacles.

What's in it for you?

Contractor

- Higher productivity
- Better resale value
- More contracts within your reach

Operator

- Fewer maneuvers
- Greater control
- Consistent clearing
