DITCHING BUCKETS

Entirely made of Hardox® 450 steel. Lighter and more durable than commercial steel.
Optimized bucket curvature with inverted ears. Easier to switch between attachments.

DITCHING BUCKETS - EGFTR					
Models	Height A	Width B	Weight	Capacity	Excavator Weight
EGF3TR-1536	15"	36"	165 lb	0.13 yd^3	3.5 to 3.8 tons
EGF3TR-1736	17"	36"	207 lb	0.17 yd^3	3.9 to 4.9 tons
EGF3TR-1742	17"	42"	234 lb	0.21 yd^3	3.9 to 4.9 tons
EGF3TR-1942	19"	42"	261 lb	0.26 yd^3	5 to 7 tons
EGF4TR-2254	22"	54"	456 lb	0.48 yd^3	7 to 10 tons

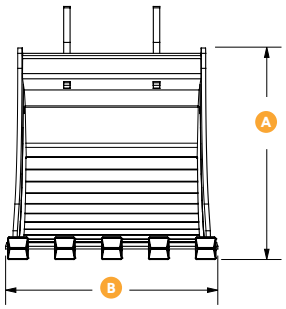

TRENCHING BUCKETS

Entirely made of Hardox® 450 steel. Stronger and more durable than regular steel.
Specifically designed for tiltrotator applications. Delivers greater precision and a superior finish.

TRENCHING BUCKETS - EGTTR					
Models	Height A	Width B	Weight	Capacity	Excavator Weight
EGT3TR-1918	19"	18"	158 lb	0.12 yd^3	3.5 to 3.8 tons
EGT3TR-1925	19"	25"	191 lb	0.16 yd^3	3.5 to 3.8 tons
EGT3TR-2118	21"	18"	202 lb	0.13 yd^3	3.9 to 4.9 tons
EGT3TR-2124	21"	25"	243 lb	0.18 yd^3	3.9 to 4.9 tons
EGT3TR-2418	24"	18"	232 lb	0.18 yd^3	5 to 7 tons
EGT3TR-2424	24"	24"	278 lb	0.22 yd^3	5 to 7 tons
EGT4TR-2624	26"	24"	401 lb	0.26 yd^3	7 to 10 tons
EGT4TR-2630	26"	30"	472 lb	0.34 yd^3	7 to 10 tons

GRADING BEAMS

Faster, more efficient grading without the need to reposition the excavator.

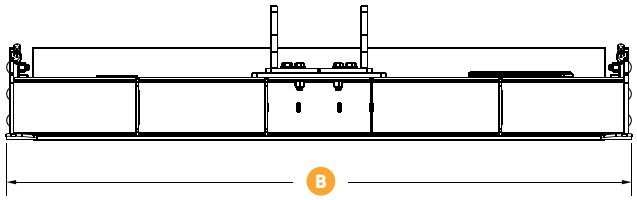

Designed for leveling dirt, gravel, soil and other materials into a smooth, even surface.

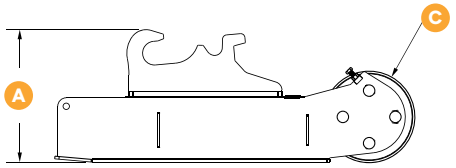

The adjustable roller height allows operators to set the desired level for each task.

GRADING BEAMS - EGBTR					
Models	Height A	Width B	Roller Diameter C	Weight	Excavator Weight
EGB3TR-60	14"	61"	9"	476 lb	3.5 to 4.9 tons
EGB3TR-72	16"	73"	11"	763 lb	5 to 7 tons
EGB4TR-72	17"	73"	11"	780 lb	7 to 10 tons

ASPHALT CUTTERS

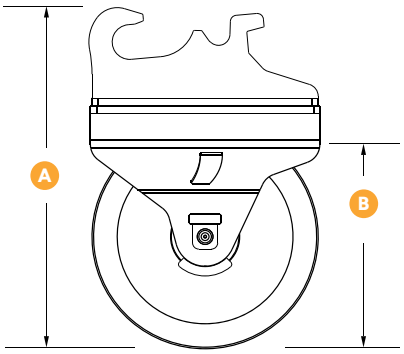

Fully made of Hardox® 450 steel, delivering superior resistance and durability under high pressure.

Enhances jobsite precision and safety by isolating the repair area while protecting surrounding structures and obstacles.

ASPHALT CUTTERS - ECA				
Models	Height A	Cutter Diameter B	Weight	Excavator Weight
ECA3	27"	18"	228 lb	3.5 to 7 tons
ECA4	29"	18"	245 lb	7 to 10 tons

GRAPPLES

Three grapple models are available to match a wide range of applications, from heavy demolition to precise material handling:

- Construction grapples for demolition and heavy material handling.
- Multi-purpose grapples for handling logs, rocks and other bulky materials.
- Finger grapples for picking and placing smaller or more delicate items.

CLOSED

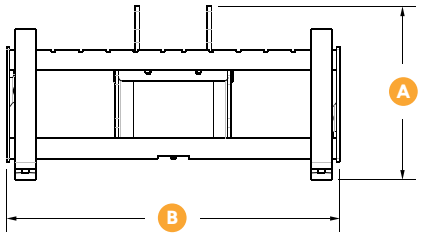

PALLET FORKS

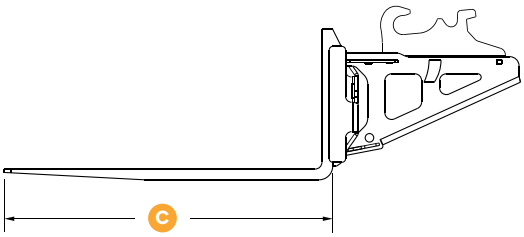

Fork lifting capacity rated at 2,000 and 4,000 lb, depending on the model.

The fork spacing is manually adjustable, with support hooks ensuring secure positioning for enhanced safety.

PALLET FORKS - EFP						
Models	Height A	Width B	Fork Length C	Capacity	Weight	Excavator Weight
EFP3-402043	25"	41"	43"	2,000 lb	344 lb	3.5 to 4.9 tons
EFP3-484048	25"	49"	48"	4,000 lb	524 lb	5 to 7 tons
EFP4-484048	27"	49"	48"	4,000 lb	541 lb	7 to 10 tons

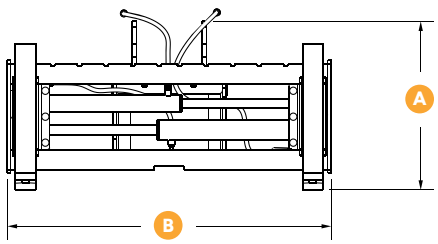

HYDRAULIC PALLET FORKS

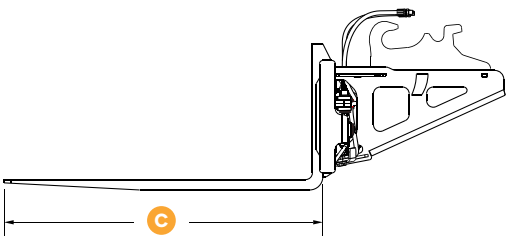

Fork lifting capacity rated at 4,000 lb.

Hydraulically adjustable fork spacing, increasing versatility by eliminating the need to leave the cab.

HYDRAULIC PALLET FORKS - EFPH					
Models	Height A	Width B	Fork Length C	Weight	Excavator Weight
EFPH3-484048	25"	49"	48"	759 lb	5 to 7 tons
EFPH4-484048	27"	49"	48"	776 lb	7 to 10 tons

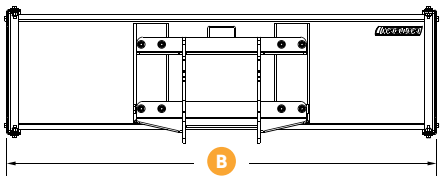

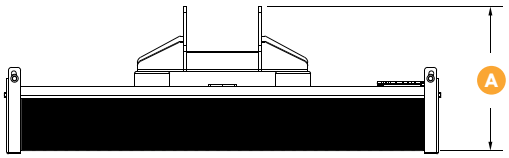

BROOMS

Designed to clean a wide variety of materials, including sand, rocks, snow and mud.
The brushes are made of ultra-durable nylon to sweep all surfaces.
Deliver a clean, professional result on every job site.

BROOMS - EBB				
Models	Height A	Width B	Weight	Excavator Weight
EBB3-60	23"	60"	517 lb	3.5 to 7 tons
EBB4-72	25"	80"	607 lb	7 to 10 tons
